

* all boxes will be outlined in gold

mission statement:
We at The Creative Block aim for an accessible website that supports the fiber arts. As artists, we believe in handmade products, not ones created with AI, so as to ensure a better user experience.

basic idea: walk the audience through our thought process as a team

QR code: will be written out details of the info displayed on the board and some additional info about our thought process going through this

CIS 453 Work

Finished product (Adrienne's designs & website)

Planning (Pseudocode / Website Design)

The Goal

our mission statement

Mission Statement:

basic architecture diagram

architecture diagram
"we were ambitious"

important requirements

requirements diagram from final product:

"we knew where we needed to focus"

The Plan

basic design of a page

Material Searching Page

pseudocode

pseudocode for pattern searching

design

scissors picture

fake ads (could be replaced)

logo development

photos adrienne sent to group chat

Basic Idea: explain that the first few weeks of CIS 454 were all about converting the diagrams into something real

↑
if there's too much extra room, could add a sequence diagram

* all descriptions will be cut out using crazy scissors
